Working together to improve your oral health

## TENNderCARE for your CHILD'S TEETH

**TENNderCARE is Tennessee's EPSDT program. Here are some things to remember about TENNderCARE (EPSDT) dental services.**

**Check In!** Children need to see the dentist every six months. If you don't have a dentist, call Doral Customer Service at 1-888-233-5935.

Children on TennCare also have TENNderCARE until they reach the age of 21. It's important for your children to get regular dental checkups and care.

**Check Up!** At the exam, the dentist will look at your child's teeth and mouth and may do some or all of these services: take x-rays, clean their teeth, and apply fluoride. Your dentist will explain any treatment that may be needed and may schedule another appointment for your child.

TENNderCARE dental services may be provided to you at no charge or you may have to pay for the co-pay, if you have one.

**Check Back!** The important thing to remember with TENNderCARE is that your child is covered for most dental treatment. Taking your child to the dentist regularly is important to their health. Make sure your child gets the dental services they need.

**If you need help finding a dentist and have TennCare<sup>SM</sup>  
Call Doral Dental Customer Service at 1-888-233-5935  
Or visit our website [www.doralusa.com](http://www.doralusa.com)**
